

PROGRAM INFORMATION

Our program runs for three sessions in July, beginning on the following Mondays: July 9th, July 16th, and July 23rd. Come for one 4-day session or take advantage of all we have to offer by enrolling in all three!

The program runs from 9-2:30, Monday through Thursday.

We can accommodate children from the ages of 4 through 12. Children will be placed into similarly aged groupings to appropriately tailor activities

Low child to instructor ratio

Staff includes certified teachers and trained volunteers

A wholesome, nourishing lunch, as well as snacks and drinks, are provided daily

IMPORTANT DATES AND PAYMENT INFORMATION

In an effort to secure your child's spot, please return this form to us with either a \$50 deposit per session or payment in full as soon as possible. If you choose to send a deposit, the remainder of the cost is due by May 20th, 2012. Do not hesitate to call with questions about enrollment/availability or about our program. Please send payment and registration form to the following address:

SUMMER FUN at the FARM

A weekly summer activity program at the beautiful Hilton-Winn Farm in Cape Neddick, Maine

Give your child a country farm experience that will enrich their hearts, minds and spirits while they have FUN!

Give your child an awesome, fun-filled nature experience this summer!

Nancy Breen is the Director of the Youth Enrichment Center (YEC) at the Hilton-Winn Farm, and holds a degree in Early Childhood Education from Colby-Sawyer College. In 2002, she purchased the beautiful property in order to establish a place where children could experience nature and participate in farm-based educational activities. Included in our enthusiastic, qualified staff are Eva Diharce, M.S., CCC-SLP Speech and Language Pathologist and Katie Boringa, student at Elon University, majoring in Elementary Education. YEC programs are aimed at fostering growth in teamwork, communication, tolerance, and self-esteem building.

The Farm provides the ultimate natural setting for this magical experience. 48 acres of fields and forest surrounded by 175 acres of conservation land provide both a safe, beautiful setting and a wonderful space in which to grow.

The goal of the Summer Fun program is to use our surroundings to convey the importance of nature and our environment. This will be done through carefully planned activities and projects that build upon creativity and teamwork and are just plain FUN!

Program Details

Each session will follow the same general outline, but activities and events will change. This will allow for children attending multiple sessions to enjoy varied experiences.

The first day will include an introduction to the farm, guidelines and expectations. There will be getting-to-know each other activities and introductions. We will familiarize the children with their new surroundings. Children will create a hand-made journal to be used for activities during the week, and jump right into some of the great nature-based activities we have planned including:

- Daily nature hike
- Gardening (planting, harvesting & weeding)
- Animal Care
- Special presentations from visiting guests
- Scavenger hunts
- Nature crafts (including prints from nature, leaf rubbings, making natural dyes).
- Animal tracking
- Learn to identify plants, birds & wildlife
- Fairy houses
- Exploring surrounding fields & forests.
- Implementing & education of composting and recycling
- Daily Yoga

Snacks, lunch and drinks are provided each day with active participation from the children. We have a wonderful garden that offers nutritious, healthy produce daily. We strive to provide wholesome and fulfilling foods to nourish the body and soul, as well as food that your kids will want to eat. The farm-to-table example provided each day is an invaluable lesson. We are well-versed in food allergies and any needed accommodations can be easily made.
