

Qualified and certified staff

Nancy Breen is the Executive Director of the Youth Enrichment Center (YEC) at the Hilton-Winn Farm, and holds a degree in Early Childhood Education from Colby-Sawyer College. In 2002, she purchased the beautiful property in order to establish a place where children could experience nature and participate in farm-based educational activities. Included in our enthusiastic, qualified staff are Program Director Eva Diharce, M.S., CCC-SLP Speech and Language Pathologist, Caitlin Keating, Special Educator as well as many other certified specialists .

The Farm provides the ultimate natural setting for this magical experience. 48 acres of fields and forest surrounded by 225+ acres of conservation land provide both a safe, beautiful setting and a wonderful

IMPORTANT DATES AND PAYMENT INFORMATION

SUMMER FUN At the FARM

**2022
Pragmatics/Social
Skills Program**
Specially designed week
for Individuals with special
needs/Autism

The Youth Enrichment Center

at Hilton-Winn Farm

Give your child a
country farm
experience that will
enrich their hearts,
minds and spirits
while they have
FUN!

PROGRAM INFORMATION

Our Pragmatics/Social Skills Program is set up into a week afternoon experience 1-4pm
July 25-July 28th (Mon-Thurs)

Reverse mainstreaming (through our Mentoring -adventure week) again this year to provide more social models and opportunities!

Visual supports (PECS) will be providing for all activities as needed by each individual including social stories, visual schedules, prompts and cues . The goal for this program is for all the children to enjoy a nature based, child directed, adult facilitated summer program with a strong emphasis on expanding and building social connections and group participation. All participants will be paired with an adult or mentor to assist and facilitate participation and engagement.
Children of all abilities and ages are encouraged and welcomed!

Focus will be on having fun, making social connections, "being part of a group" and being a 'social detective' in nature as well as and being a flexible thinker and participant.

Program Details

- Daily opportunity to work with a typical peer mentor (reverse mainstreaming) during cooperative activities
- Each day will begin with a group gathering including songs, yoga and parachute activities, review of schedule
- Daily nature exploration through daily short hikes/walks and scavenger hunts
- Active participation in gardening including weeding, planting, harvesting and preparation of foods from our expansive garden
- Nature based arts and crafts
- Exposure and hands on experiences with farm animals (feeding the animals, brushing animals, collecting eggs etc.)
- Daily healthy snacks prepared by the participants (homemade lemonade, applesauce, salad from the garden, salsa,)
- Closing group with songs and review of day's activities
